

Foothill College Full-time Faculty Searches 2017-18

March 21, 2018

The District has authorized Foothill to conduct searches for two full time faculty positions in 2017-18. The Vice President of Instruction and the Deans reviewed requests for positions included in program reviews in fall 2016 as well as more recent information. The following positions were selected for searches:

Respiratory Therapy

Rationale: with the departure of a full-time faculty member last year this position is needed to maintain in good standing with accreditation (Commission on Accreditation for Respiratory Care).

Political Science

Rationale: the department serves more than 1,400 students a year, now with 1 full time faculty member. Success rates have shown a steady increase over the last five years and enrollment has been stable. There is now an opportunity to develop another ADT in Law, Public Policy and Society. Nearly 70% of courses are taught by part-time faculty.
