Enrollment and Course Success: (Some) Insights on Student Progress and Achievement

Admin Council

Asking the Questions

- Who are we serving?

- Are students making progress?

- How do we facilitate student progress?

- Do our equity interventions enhance success and progress?

Data for Practice

- Framework to reflect on the practical significance of these data
  - So it becomes information
  - So it informs how initiatives/programs operate and for what purpose/goals
  - So it is actionable

3

A Frame for Student Success

- What is being affirmed? [Identities/Experiences]

- How does the support occur? [Process]

- Where is the program/policy occurring? [Context]

- When does intervention occur? [Timing]

Centering student voice and experiences; reach out first (and early), affirming/supporting on a consistent basis; as a process and not a means to an end

Data Overview: One Lens on Student Experiences

- Enrollment

- Course Success

Where are the points of entry from enrollment, course success to our equity initiatives?

- Initiatives along the student pathway
  - Dual Enrollment
  - College Promise
  - AB 705
  - Learning Communities

Are our initiatives coordinated? How do our initiatives drive from student strengths, assets, and capabilities?

Summary: Data to Action

- How do our initiatives facilitate and reinforce student ability to succeed?
  - Across all perspectives, backgrounds, traits
  - Limitations of existing structures and processes

- Continue knitting individual initiatives together into a community environment for learning
  - Based on students' existing strengths and knowledge (especially non-traditional)
  - Across instructional, instructional support, and student services (guided pathways)
