Data Analysis & Data Literacy for a Better World

Fri, Mar 14
10:00 - 11:30 AM
Zoom

R This free workshop expands on “[Data Literacy 101](#),” exploring AI’s impact on data analysis. Traditional data distinctions are fading as AI converts qualitative data into complex, high-dimensional quantitative forms. The session highlights both the power and misuse of data, urging educators to develop students as critical analysts. Participants will learn modern methods and strategies for ethical, informed decision-making.
