RE: Middlefield Campus Concurrent Enrollment

Overview

Students enrolled in at least one course held at the Middlefield campus in Fall 2011 or Spring 2012 were identified to determine how many of these students were concurrently enrolled at the main campus. Table 1 shows that slightly less than half of the Middlefield students were concurrently enrolled in at least one course at the main campus.

Table 1. Concurrent Enrollment at Foothill Middlefield and Main Campus, Fall 2011 and Spring 2012.

Term	FM Enr	FM and FH Enr	Enr Percentage
Fall 2011	1613	732	45%
Spring 2012	1198	558	47%

Methodology

Enrollment was identified based on campus code, where FM=Middlefield and FH=Main Campus. Note that students could have been enrolled in an online course. The student count includes all who registered for the course, including those who may have dropped courses during the academic term.
