RE: Out-of-State online students

---

### Overview

Students enrolled in at least one online course as of the Fall 2012 census were identified to determine the number of out-of-state students being served through this instructional method. There were 5620 and 3576 students enrolled in at least one online course at Foothill and De Anza respectively. Table 1 shows the number of out-of-state online course takers by campus, which comprises a very small percentage among all online course enrollment.

Table 1. FHDA Out-of-State Online Enrollment, Fall 2012.

Institution	Headcount	Out-of-State Headcount	Percent Out-of-State
De Anza	3576	11	0%
Foothill	5620	47	1%

Table 2 shows the time status of these out-of-state online students. Slightly less than half of these students are enrolled full-time (45%).

Table 2. FHDA Out-of-State Online Enrollment by Full-Time/Part-Time Status, Fall 2012.

Institution	<u>Full-time</u>		<u>Part-time</u>		<u>Total</u>

De Anza	5	45%	6	55%	11	100%
Foothill	21	45%	26	55%	47	100%

Oregon, Washington, Florida, and Virginia have the largest representation, representing 31% of all out-of-state online students (Table 3).

Methodology

Online instructional method was identified by focusing on courses ending in “W” and “Z”. Out-of-state students were identified based on their preferred address.
