 RE: Fall 2012 Concurrent Enrollment

Overview

The National Student Clearinghouse recently released its Fall 2012 Concurrent Enrollment Report. Note that concurrent enrollment occurs when a student is enrolled at two or more institutions and the term enrollment overlaps by at least 30 days. The findings support the Community College Survey of Student Engagement’s (CCSSE) results that indicate about one-fifth of respondents being concurrently enrolled at another institution during Spring 2012 (21%).

Table 1 shows that 16% of Foothill students are concurrently enrolled at another institution during Fall 2012. This figure is higher when compared with students enrolled at all two-year public institutions (+12%).

Table 1. Foothill College Concurrent Students Enrollment, Fall 2012.

Enrolled Students	Concurrent Enrollment	Percent Concurrently Enrolled	Percent Concurrently Enrolled in Two-Year Publics
11,839	1,924	16%	4%

Note: Enrollment is an unduplicated headcount of Fall 2012 students. NSC data excludes students without social security numbers and apprenticeship students.

Table 2 reports the institutions where concurrent enrollment occurred during Fall 2012. Almost three-fourths of Foothill students who are concurrently enrolled attend two-year publics (74%). Another one-fifth are concurrently enrolled at four-year public institutions (19%).

Table 2. Concurrent Enrollment by Institutional Type, Fall 2012.

Institutional Type	Concurrent Students	Percent
Two-Year Public	1,609	74%
Two-Year Private For-Profit	1	0%
Four-Year Public	409	19%
Four-Year Private Non-Profit	137	6%
Four-Year Private for Profit	7	0%
Total	2,163	100%

Note: Concurrent enrollment does not match headcount as students may be enrolled at more than two institutions.

Among those enrolled full-time at Foothill, the majority are concurrently enrolled part-time at another institution (82%). Almost one-fourth of all part-time Foothill students are concurrently enrolled full-time at another institution (23%). Overall, the majority of Foothill students who are concurrently enrolled are enrolled part-time at the concurrent institution(s) (77%).

Table 3. Foothill College Concurrent Enrollment by Student Status, Fall 2012.

Foothill Status	Full-Time at Concurrent School	Percent of Foothill Concurrent Enr	Part-Time at Concurrent School	Percent of Foothill Concurrent Enr	Total	Percent
Full-Time	34	18%	160	82%	194	100%
Part-Time	455	23%	1,514	77%	1,969	100%
Total	489	23%	1,674	77%	2,163	100%

Note: Concurrent enrollment does not match headcount as students may be enrolled at more than two institutions.

Many Foothill students who are concurrently enrolled are attending De Anza College (40%). Almost 10% of Foothill students who are concurrently enrolled also attend San Jose State University (7%).

Table 4. Foothill College Top 15 Concurrent Enrollment Institutions, Fall 2012.

Rank	Concurrent Institutions	FH Full-Time Enr	FH Part-Time Enr	Total	Percent of Total Concurrent Enr
1	De Anza College	85	680	765	40%
2	San Jose State University	55	78	133	7%
3	Mission College	10	87	97	5%
4	West Valley College	10	85	95	5%
5	California Polytechnic State University	61	6	67	3%
6	San Jose City College	6	59	65	3%
7	Cañada College	5	53	58	3%
8	College of San Mateo	8	45	53	3%
9	San Francisco State University	24	26	50	3%
10	Ohlone College	4	40	44	2%
11	City College of San Francisco	5	38	43	2%
12	Skyline College	3	40	43	2%
13	Evergreen Valley College	4	34	38	2%
14	Notre Dame de Namur	10	21	31	2%
15	California State University-East Bay	15	12	27	1%

Methodology

Foothill College submits data to the NSC three times a quarter (at census, mid-quarter, end-of-quarter) as part of compliance in financial aid reporting. Foothill also subscribes to the NSC as the NSC's data can be used to track transfers. Note that NSC data excludes students without social security numbers, those who entered incorrect social security numbers and those who choose to withhold their social security numbers for reporting purposes. Additionally, apprenticeship students are not reported to the NSC. This report identifies the concurrent enrollment period as between August 13, 2012 through October 31, 2012. Given this time frame, the NSCH report is based on Foothill's submission from the fall census.
