RE: Non-Credit Parenting (NCP) Enrollment, 2015 (HSF) v2

Overview

Students who registered for Non-Credit Parenting (NCP) courses in 2015 were identified to determine their course enrollment patterns. There were 584 students who enrolled in at least one NCP course, making up a total enrollment of 956 (Table 1). Seven students enrolled in credit courses during 2015, making up an enrollment of 30.

When examining the overall course enrollment, it appears that the majority of students enrolled in NCP 400 and NCP 402 (74%) (Table 2). Over two-thirds of the NCP enrollment occurred in Winter 2015 (39%) and Fall 2015 (29%). Appendix 1 shows more detailed enrollment data, at the course, section and term level.

Table 3 shows the NCP courses in which students enrolled. Almost all the students enrolled in only one NCP course (90%). The most common NCP course combination was enrollment in NCP 400 and NCP 402 (5%). Note that these data does not show the number of sections in which students enrolled, as a student could be enrolled in multiple sections of one NCP course.
